## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-5,7-10,20-22 and 26-46 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record neither discloses nor teaches a liquid crystal display device comprising various elements as claimed, more specifically, as the following:

the pixel electrode having such configuration that the second end portion and the fourth end portion are at a same height as the main face, and the first end portion and the third end portion are disposed closer to the opposed electrode than the main face; and the two end portions of the first end portion are further closer to the opposed electrode than the center of the first end portion; and the two end portions of the third end portion are further closer to the opposed electrode than the center of the third end portion [claims 4, 29, 35 and 41, as shown in Figs. 6A, 6B and 7];

the pixel electrodes having a main face and a first face between the two second faces as shown in Fig 6A , 6B, and a main face, and the second faces closer to the opposed electrode than the first face [claims 1,20 and 26, as shown in Figs.6A, 6B and 7].

The closest reference such as US 5,872,611 (Hirata et al) discloses a pixel electrode having protrusions, and does not disclose such pixel configuration as claimed wherein the pixel electrode having first end portion, third end portion, second end portion and forth end portion; and two end portions of the first end portion, two end
